The continuing coronavirus situation has reduced the number of live, “in-person” summer opportunities for students. However, an increasing number of programs have switched over to virtual formats, so students should consider & focus on these programs, in addition to the traditional

opportunities. These online options, along with other virtual resources, are listed at the beginning of each Category Section below, under this heading: **Online Opportunities and Resources.**

And many online academic classes (such as CUNY's College Now free program) are available and excellent options – check the ACADEMICS section for some of these courses, which will be updated every week.

Students and parents are welcome to send any suggestions as to available online academic (& other) offerings that they are aware of to: [hblumm@stuy.edu](mailto:hblumm@stuy.edu) - we will share your helpful information with the Stuy community!

Please note that many of the opportunities listed below have final application deadlines of **April 30 or May 1**. Students should apply to any that match their interests or enable them to help the community. Given all the uncertainty attached to our current situation, you should consider any options that seem suitable and beneficial.

Most colleges and universities are aware of the disruptions and difficulties students are currently facing in continuing their usual academic & extracurricular activities. Many colleges have sent messages to high schools to reassure students and staff of their awareness of the reduced availability of student opportunities, both inside & outside of school.

One typical message, part of which is copied below, came from the Columbia University Admissions Office. As a Stuyvesant student you can and should continue to explore and apply to summer activities programs that are of interest (and that you'll enjoy). But keep in mind that the higher education community understands the challenges you are facing in this aspect of your high school experience.

*“Furthermore, as we consider younger students, we understand that disruptions may significantly alter the trajectory of their extracurricular, athletic and other pursuits. Students might not have access to summer programs or other*

*enrichment experiences. Their college applications will likely look different than they have in the past. We remain committed to our holistic and contextual review process that considers the individual circumstances that shape each applicant's journey.”*

If you are selected for or enroll in any of the above opportunities, please inform Mr. Blumm ASAP at: [hblumm@stuy.edu](mailto:hblumm@stuy.edu)

And whichever extra-curricular program, internship, or community service activity your child may participate in, they should be sure to ask their supervisor/coordinator to write a letter of appreciation before it concludes – it is sometimes very difficult to obtain this later on. And the more personal & detailed the letter, the better. A copy should then be submitted to the Guidance office (Room 236).

Please feel free to contact Harvey Blumm at [hblumm@stuy.edu](mailto:hblumm@stuy.edu) with any questions or feedback on any items in this message, or with any suggestions or

concerns you may have. **And always feel free to share any information about opportunities that may be of interest to our parents, teachers, or students.**
